Greenshades | Microsoft Dynamics 365 Business Central

Enhance Dynamics 365 Business Central with Greenshades Payroll and HR

As a long-standing Microsoft partner, you can count on Greenshades to handle your payroll, HR, and tax operations.

Elevate Your Payroll with Greenshades Software

Greenshades' cloud-based solutions are expertly designed to integrate with Dynamics 365 Business Central, ensuring a smooth flow of employees, projects, and payroll information between solutions. Experience an intuitive process that simplifies running payroll from start to finish in a streamlined workflow. Manage complex payroll calculations, including shift differentials, garnishments, and more, while enjoying the flexibility to conduct unlimited and multiple pay runs, facilitate off-cycle checks, and more.

And it doesn't stop there- avoid costly fees and penalties with automatic adherence to location-specific overtime, minimum wage, and other FLSA payroll requirements. Payroll taxes are accurately calculated and deducted based on the employee's work location, ensuring your payroll process is compliant from beginning to end.

Project Accounting: Business Central Jobs Module

Payroll custom fields allow you to cut out the risk associated with manual labor by breaking-out labor expenses into more granular details for your accounting needs. During the payroll process, you can easily tie earnings to a location, project, client, and more. The Greenshades Payroll module and Microsoft BC Jobs Module work in tandem to keep track of labor expenses associated with a certain project or client.

Support Beyond Payroll

Keep track of labor, manage employees, and handle filings with Greenshades.

Precise Labor Tracking

Capture shifts that span across midnight, allocate shifts to specific departments, apply PTO, and provide a simple timesheet review process for managers. Empower your employees with the freedom to clock in using their mobile device and from any approved location.

Manage HR Needs in One, Secure Location

Efficiently manage your employees in a single centralized system eliminating the need for duplicate entries or multiple systems.

- Customize the onboarding experience for new hires
- House HR data and manage certifications and licenses
- Streamline benefits management and ensure ACA compliance for your workforce
- Offer financial wellness services for your team through marketplace partners
- Attract top talent with specialized recruiting marketplace partners
- Enhance employee training through learning management marketplace partners

Employee Engagement

The self-service portal gives employees access to functions such as viewing paystubs, requesting PTO, managing benefits, accessing important documents, and more right at their fingertips. Save your HR team time by giving employees the tools needed to take charge of their HR information.

Swift and Secure Filing

Experience hassle-free processing of year-end forms. Collect and validate information, enabling you to swiftly review forms and confirm SSNs within a streamlined workflow. Upon completion, distribute the forms electronically or by print and mail to distribute to employees and vendors. With Greenshades, you can also file and monitor federal, state, and local tax returns, new hire forms, 1095c filing, and more.
